**Subject:** press etc.

---

dear nato

i will soon arrive, one thing i need to mention is the release of info on my show, which i am not happy about since you havn't ask or sent it to me, which i don't like and makes things mixed up in the future.

do you ever describe a book upfront that is not written?? you have no idea how much stuff can change and i don't want to be determined by language and having people going thru the show saying no that's it's not what i said in the newspaper.

the plan we made is not for the public. you have to learn and accept the way i work when i do installations, it's a growing process and it won't be determined upfront by some translation into language, there is no press release saying there is this or that. I will not play this game. and there is no press or interview before the installation is finished, we will work until the last minute and i already tell you now, that the last couple of days everything will change and take shape. you have to be patient.

if you do your press work you have to do it after the piece is finished. I tell you, i will not accept some stupid journalist walking around in some unfinished installation.

i can't stand journalists and will not deal with them and will not allow them to see the show before the installation is finished. so they can come to the opening, like anyone else or later but not before.

and please don't publish what is going to happen in the installation in detail.

all best looking forward for the donuts drivin and the party on the 1956 bridge and THE DOCUMENTARY with DOHN

cheers buddy

best

christoph
