Table Q23

Boston Globe
Release 5 (Medical Marijuana), June 22-24, June 29-July 1

In November 2016, it is likely that a question will be on the ballot asking voters whether or not they approve making it legal for adults over 21 to consume or possess a limited amount of marijuana. Based on what you know at this time, would you support or oppose this measure to legalize marijuana for recreational use?

Table Q27

Boston Globe
Release 5 (Medical Marijuana), June 22-24, June 29-July 1

Currently, state regulations in Massachusetts allow physicians to certify patients to purchase up to 10 ounces of marijuana every 60 days if the patient is deemed to have a qualifying debilitating condition. This amounts to approximately 500 individual joints over two months.

Some physician groups have said that this is **excessive** and could lead to patients selling excess to other non-patients on the black market.
Others say that this is **not excessive** and there are some seriously debilitating conditions that require that amount of marijuana to treat effectively.

Based on what on you know at this time, which statement comes closest to your own view?

Table Q27

Boston Globe
Release 5 (Medical Marijuana), June 22-24, June 29-July 1

Currently, state regulations in Massachusetts allow physicians to certify patients to purchase up to 10 ounces of marijuana every 60 days if the patient is deemed to have a qualifying debilitating condition. This amounts to approximately 500 individual joints over two months.

Some physician groups have said that this is **excessive** and could lead to patients selling excess to other non-patients on the black market.
Others say that this is **not excessive** and there are some seriously debilitating conditions that require that amount of marijuana to treat effectively.

Based on what on you know at this time, which statement comes closest to your own view?

Table Q28

Boston Globe
Release 5 (Medical Marijuana), June 22-24, June 29-July 1

Currently, the state allows medical marijuana to be prescribed for serious debilitating conditions including but not limited to Parkinson's disease, cancer and ALS. In addition, a patient's certifying physician can also prescribe marijuana if they are determined to have another debilitating condition that is not specifically included in the regulations.
As the regulations are currently written, do you think they are too restrictive, too lenient or about right when it comes to prescribing medical marijuana?
